

► Le Grand Prix de l'innovation: a benchmark industry award

The Grand Prix de l'Innovation 2005 has become a benchmark industry award. Two prize categories are awarded :

1-the Grand Prix de l'Innovation - awarded for a market changing technological or service breakthrough

2-the Congratulations of the Jury - awarded for a significant individual technological or service advance.

Competing exhibitors submit a comprehensive dossier which is scrutinised by an expert Jury during the Exhibition.

The trophies at the Bois Energie 2005 were awarded across three activity categories to:

2005

■ Category - Wood fuel equipment

PINOSA - Congratulations of the Jury

EPC 2400 - working of tree trunks, branches and saw mill ends with a sole operator.
